

Absorbent PVA Chamois

Introduction

Made with durable, PVA (Polyvinyl Alcohol) material, Armor All® Absorbent PVA Chamois works like a super absorbent sponge cloth to soak up water fast.

In addition to being soft and smooth, when you dry a surface, the Armor All® Absorbent PVA Chamois enables you to complete the job quickly, leaving the area spot free, without any streaking.

Using Armor All® Absorbent PVA Chamois - Features & Benefits

Features & Benefits

- Pre-soaked and durable chamois
- Glides and absorbs water with ease
- Made with PVA (Polyvinyl Alcohol) which provides an excellent ability to lift moisture
- In addition to a car wash towel, can also be used as; sport/hair drying/face/pet/ shower screen towel
- Can also be used in many standard cleaning applications too such as wiping down counters, drying spills, and as a household cleaning cloth
- The silky smooth texture, and soft, squishy feel make it both comfortable to hold, and incredibly effective to use

Directions

1. Unlike genuine leather chamois, there is no need to pre-dampen this product before use. Simply wipe wet surface in small sections at a time, wringing out excess water as needed.
2. After use, rinse chamois with water and wring out excess. Always store your chamois moist in this container.
3. It will harden if left out to dry. To re-soften simply soak in water.
4. If it starts to discolour or become dirty, wash in the washing machine at a low temperature.

NOTE: Do not use bleach or fabric softeners. 100% vinyl.
