

Telescopic Flow-Thru Brush

Introduction

Car owners want to ensure their entire vehicle is thoroughly cleaned from roof to wheels. However, with most car roofs and large family cars being at high and hard to reach angles, unfortunately this may jeopardise a thorough clean of the entire vehicle.

Fortunately, Armor All® have developed an accessory that enables drivers to safely and easily clean their entire vehicle and those hard to reach places without having to use ladders or putting extra weight on the vehicle.

Armor All® Telescopic Flow-Thru Brush has a 27cm wash head with a flow thru handle that extends to 186cm. The multi length design of the product is ideal for drivers that want to clean car roofs, large family cars, trucks, vans, caravan or motorhome with ease. Features an on/off tap to avoid unnecessary water wastage.

Using Armor All® Telescopic Flow-Thru Brush - Features & Benefits

Features & Benefits

- Universal hose connector with on/off switch
- Soft and gentle bristles with large brush head
- Ideal for large family cars, 4x4s and caravans
- Lightweight aluminium telescopic pole extends to 186cm
- Comfortable grip to give maximum control
- Extra-long handle for fast and effortless vehicle cleaning

Directions

1. Attach hose to connector and control water flow with on/off switch built into the handle.
2. Use with car wash to remove dirt and stains from surface in sections at a time.
3. After use, rinse well with clean water and leave to dry before storing.

NOTE: Always shut off water while applying soap in a bucket or when extending pole length required. Do not use in water exceeding 40°C.
