## BAREBONES LEATHER TRIVET BLACK

ref : CKW-411

		
140	19x19	50

Protect tables and countertops with this beautiful, timeless leather trivet. Double insulation prevents heat passage to wooden tables and delicate countertops: serve a meal or make room on the stove. Ideal as a potholder for use with heavy cast iron handles and lids. Genuine suede appearance only improves with time. Expect a lovely, natural patina to deepen after frequent use while keeping the original shape. Attached leather loop makes quick work of storage when you are done cooking or preparing your meal.
